

Leviticus: A Call to Holiness
Pursuing Holiness Takes Time
Leviticus 23:1-44

We live in a world that expects quick solutions to its problems. We think a quick lottery ticket will fix our financial problems. We think a quick counseling session will fix our marriage problems. We think a quick trip to church will restructure and order our lives. When that attitude seeps into the life of a believer, we may tend to think that holiness happens overnight.

The New Testament tells us to gather together for worship and fellowship. When our time and our schedules are submitted to the Lordship of Christ, these things will be included in our everyday way of life. They will be included in our planners and in our calendars. Pursuing holiness requires us to recognize Christ's lordship over time.
